

TELEGRAPHIC.

Winnipeg, August 19th.
Two soldiers were drowned at Halifax.
The Michigan miner's strike has collapsed.
The Marquis of Lorne has written a drama.
Deaths: J. H. Grundy, Windsor, Ont., Prof. Cornish Montreal.
\$10,000 worth of securities were stolen from the Montreal city hall.
Rain and lightning did a good deal of damage Ontario, on Saturday.
The British liberals are just now considering who shall be their future leader.
Nine persons were drowned by the capsizing of a boat off the Maryland coast yesterday.
Women are reported to be the principals in a huge scheme to defraud the customs at Buffalo.
An alleged plot of anarchists to blow up the British house of commons has been discovered.
Killam, liberal and Powell, conservative, were nominated in Westmoreland County, N. S., for the commons.
Drs. Holmes and Ausplund, of Portland, Oregon, fought a pistol duel in the formers office. Ausplund will die.

LOCAL.

POPULAR LAKE school house is completed.
T. B. HENDERSON went south on Friday's train.
W. GABRIEL started for Montreal on Friday's train.
J. HURSTON started for Manitoba on Friday's train.
W. MITCHELL, Belmont, cut wheat and oats last week.
Mrs. HOGWOOD of Beaver lake, who has been visiting in Revelstoke, B. C., returned on Thursday's train.
Messrs. Dan Brown, Johnstone, Peppard and Sanders left for the Athabasca on Friday with mining machines and supplies.
J. DEAN, of the Canadian Agricultural & Coal company, Calgary, arrived on Thursday's train, to straighten up some of the company's business here.
THE WINNIPEG Commercial has dropped its quotation of Manitoba and Edmonton oats. It now quotes only Washington oats at \$27 a ton or 45-9-10 cents a bushel.
One car of lumber from New Westminster for J. J. Duggan, one car of sugar from Vancouver for McKenzie, Powis & Co., and one way car arrived on Thursday's train.
THE EDMONTON Pork Packing Co. are erecting an addition to D. Ross' former hotel building, 18x24, one story, for use in their business during the coming season. Jas. McDonald builder.
A HARVEST festival is to be held at the opening of the new Belmont school house on Monday, Aug. 26th, at 8 p. m. All are cordially invited. Refreshments will be served. Collection in aid of Belmont literary society.
A MEETING of the creditors of the Edmonton Saw Mill company was held on Friday afternoon and adjourned until a later date. The bulk of the assets of the company appear to be under mortgage to the Jacques Cartier bank, under which mortgage some lumber, which had been sold by the company to third parties, has been seized.
REV. DR. ROBERTSON and Rev. Chas. W. Gordon arrived on Friday. Dr. Robertson is superintendent of Presbyterian missions from Lake Superior to the Pacific and is making his annual visit of inspection. Rev. Mr. Gordon, who was at one time stationed at Banff, spent last winter in the old country in the interest of Presbyterian missions in Canada and incidentally was active in promoting immigration to Canada. During his present trip he will add to his stock of information in that respect for future use. A meeting was held in the Presbyterian church on Friday evening which was addressed by Dr. Robertson and Mr. Gordon, on the subject of missions and mission work. On Sunday morning Rev. Dr. Robertson preached in the Presbyterian church, Edmonton, Rev. Mr. Gordon preached in the evening.
L. ROBERTSON returned on Thursday's train from Rossland, B. C. Mr. Robert left Edmonton for Rossland about three weeks ago. It is a place of about 3,000 inhabitants and very bustling but not very busy. Mr. Robertson believes that the greater part of Rossland is boom. The mines are probably good but they are not being worked fully, and there is very little work to be had in the town. It is of the usual type of mining town; cheap buildings of wood and paper make up the two principal streets, Spokane and Columbia. Large numbers of people are coming and going all the time. Mr. Pigeon, civil engineer, who went to Rossland the train before Mr. Robertson, had not struck anything when the latter left and intended going to South America. Alex. Wilson who went in the spring is working on a claim of his own about three miles up the mountain from the town and Mr. Robertson did not see him.
On Thursday afternoon the ceremony of pronouncing a blessing on the new gold scow, "Notre Dame de Mistassini" was performed by His Lordship Bishop Grandin and two of his assistant clergy in the presence of a large number of spectators. The scow was gaily decorated for the occasion with flags and streamers of various kinds. After the ceremony the Bishop and clergy and several invited guests were entertained at luncheon on the scow. A photo was taken by W. A. Foy, of Mathers' photo gallery. It was expected that the scow would have been ready for work when the ceremony took place, but owing to delay in regard to the fitting of the machinery it was not quite ready on Thursday. On Friday steam was got up and the scow was worked successfully. The grizzlies are not yet completed so that actual operations have not yet begun, but it is almost certain that work will commence to-day or to-morrow. Notwithstanding the great weight of the scow and machinery she will not draw more than two feet of water. The grizzlies are huge affairs hanging on each side of the scow, and can be adjusted so as to give a greater or less speed to the water as it washes the sand from the gold.

Mrs. THOS. HURSTON returned from a visit to Winnipeg on Thursday's train.
G. W. R. ALMON, of the Edmonton land office, returned from Red Deer on Monday of last week.
E. BROUSSEAU, of St. Albert, returned on Thursday's train from a trip to Winnipeg and St. Paul.
A. R. LANG, one of the pioneers of Fort Saskatchewan, has removed to Beaver creek where he has taken up a new farm.
THE upper ferry sank during the night of Thursday last and on Friday morning it had to be hauled out and repaired before it could be run.
ANY appeals that have not been heard will be considered if appellants will hand a sworn statement of values to the town clerk before noon to-morrow.
EGGS have been getting scarce in town lately at 12c. to 15c. and have taken a jump to 15c. to 20c. Butter still stands at 15c. for ordinary rolls and 20c. for butter by special makers sold to special customers.
FIVE men left South Edmonton on Friday for the Jasper house, on a prospecting trip. They took five pack horses and several saddle horses. They are from the United States and are on a prospecting trip in the Mountains. They may prospect on the McLeod however on the way.
F. HERON, H. B. officer at Fort Wrigley, arrived on Thursday's train from a visit to Winnipeg and Prince Albert, accompanied by Mrs. Heron and children. He left on Friday forenoon for the Landing to catch the H. B. steamer which leaves on Saturday, and would have to drive all night.
THE Council sat as a court of revision on Friday evening and heard all the appeals. Court was then adjourned till Wednesday the 21st inst, with closed doors when appeals will be decided upon. Ratepayers will be given the decisions on application to the town clerk on Thursday the 22nd from 10 till noon.
POLICE teams have left Fort Saskatchewan for Union lake to distribute supplies along the route to be travelled by the premier and minister of interior during their trip amongst the Indian reserves from Edmonton to Battleford. From Union lake east the police from Battleford will provide for the party.
GEORGE GARRON, nephew of Charles N. Garson who is manager of the H. B. store at Union lake, died in Edmonton last night after an illness of about two weeks. He came out from Scotland about a month ago intending to meet his uncle. His illness and death took place at the house of J. B. Graham. The funeral takes place to-morrow.
THE river has fallen rapidly during the past few days. Ross' bar became bare on Saturday and the same day a party of miners began work on it. The harvest time for miners is now on. The long continued high water this season will no doubt have brought down more than the usual quantity of gold, so that the skimmings will likely be good.
RASPBERRIES are scarce this year, and only a few are being offered for sale. A scarcity of raspberries is something almost unheard of in this district. All the early blossoming berries have been scarce this season, the blossoms having been injured by late spring frost. High bush cranberries however are abundant and no better berry grows for making jelly, or even jam.
THE annual picnic of the Methodist Sunday school was held on Saturday at Groat's grove in the flat at the west end of town. Buses left the Methodist church at 11 o'clock taking the children and their teachers to the grove where tables were laid and luncheon served at 12 o'clock. During the afternoon the number on the grounds increased largely and races, sports and amusements of various kinds for the children were held. Tea was served at 6 o'clock and about 8 o'clock the grounds were deserted after a very pleasant day having been spent.
JOHN CAMERON leaves on to-morrow's train as the board of trade commissioner to the Kootenay district with a view of finding out if a profitable trade can be done with that region in Edmonton products. He takes with him a number of large advertising cards on which appear a large photo view of Edmonton, and also a photo of the vegetable display at the time of Lord Aberdeen's visit last year. There is also printed the following: "Notice to produce dealers: 'Edmonton, Alberta, exports oats, barley, bran, chopped feed, butter, cheese, eggs, potatoes, onions, cabbages, and other vegetables; hay; also fresh and cured meats. It is the nearest producing and exporting railway point in the North-West Territories to British Columbia.' Then follow the names of a number of the produce dealers of the place. Mr. Cameron will distribute these cards in the principal points in the Kootenay district, and will then go on to Vancouver, and will visit Seattle before his return. He will be absent about three weeks.
THE Calgary Herald is troubled because of six candidates for first class teachers' certificates at the recent Territorial mid-school examinations only three passed. Of 47 second class only 9 passed. Of 140 third class only 39 passed, of whom 13 were under age and therefore not entitled to a teaching certificate. Of 320 who took the high school entrance examination 125 passed and of 500 who tried for promotion from standard three to standard four 150 passed. The Herald thinks that the large proportion of failures shows that the questions asked were too hard; which is quite evident, as far as the majority of the candidates were concerned. And also that many of the questions were of the nature of catch questions and therefore improper. On the other hand, while the large proportion of failures is to be regretted, that large proportion confers the more honor on the successful candidates. If an examination is held to test the mental powers of the candidates as well as to take the measure or weight or bulk of the information that has been crammed into their respective brains by their respective teachers, catch questions, or questions out of the ordinary course, are quite in order. And then again to pass examinations is not the chief end of study. They are an incident, not a result.

TRAIN was fifteen minutes late at Olds.
THE Minnow took a small excursion party to the Big Island yesterday.
MRS. JAS. MACDONALD returned from a visit to Battle river on Thursday's train.
E. M. HUBBELL, D. L. S., has gone to Gull lake to survey one or two townships there.
F. H. ANDREWS is removing his stationery store to the building occupied by E. Raymer.
A GAME of baseball will be played in Edmonton on Saturday afternoon next between the Edmonton and Sturgeon teams.
MR. AND MRS. HOLMAN, of Winnipeg, arrived on Thursday's train from Winnipeg and are visiting Mr. and Mrs. W. T. Henry.
W. D. MATHESON has been appointed fishery overseer for the Edmonton district by the Dominion government. He received the news of his appointment on Friday.
A MINER who recently came up the river from Victoria, developed symptoms of measles on Saturday and is now quarantined in the house near the mounted police barracks. The case is very mild.
THE annual treat given to children of All Saints church and Sunday school took place on Saturday afternoon at the grounds surrounding the church. There was a large attendance of both children and grown people. Tea was served about six o'clock and a very pleasant afternoon was spent.
W. S. EDMISTON and St. Geo. Jellett left for Cooking lake on Saturday, taking out a small sail boat, built by Mr. Jellett. A yacht race between Mr. Jellett's boat and the "Mud hen," belonging to the Koney Island club may be looked for shortly, in comparison with which the Valkyrie-Defender races will be as nothing.
D. W. MACDONALD, druggist, has a Japanese bank bill, of the amount of one yen, about 80 cents. The engraving and coloring on the bill is exceedingly fine, equal to the best western work. The characters are Japanese and English. The words "one yen," and the promise to pay to bearer are in English. The bill is about half the size of a Dominion bill and the paper is much heavier.
TO-day before C. W. Sutter, J. P., the cases of R. G. Lee and A. McLeod for wages against H. Hetu and J. Chave, of the Edmonton Saw Mill Co., were dealt with under the masters and servants ordinance. Judgment was given for the plaintiffs, and notice of appeal to the supreme court was given by the defendants. C. M. Woodworth, for plaintiffs, N. D. Beck for defendant Hetu. A. Prince for defendant Chave.
SUTTER & DUNLOP have an interesting display of old and curious coins in their show window. They are the property of Mr. Dunlop, and include coins dating from 1618 of Peru, Bolivia, Mexico, China, Japan, Persia, Straits Settlements, Australia, Russia, etc. They include an Irish penny, a pine tree shilling, a Dublin castle four-penny bit, a quarter farthing coin and a still smaller one which is labelled the widow's mite. Mr. Dunlop also owns a Roman coin of the date 55 B. C., but it is not in the present collection.
GRAIN has ripened slowly during the past week, as the days have generally been cloudy. Barley cutting is general, however, this week and some wheat and oats have also been cut, but wheat cutting will not be general until next week unless the weather improves. Although the weather has been unfavorable for ripening wheat, which is a good crop throughout the district, it has greatly improved the oat crops especially what was late sown; that in the eastern part of the district particularly having promised only a light crop. In the principal grain growing districts, Sturgeon, Stony Plain, St. Albert, Clover Bar and Agricola, there has been no frost to injure even potatoe or tomato vines, but in some other localities the potatoe tops are cut, which no doubt means some injury to wheat. But in those localities very little wheat is sown, the principal crop there and indeed throughout the district being oats. There has been no frost whatever at Beaver lake.
THE ATHABASCA.
R. Brewster arrived from the Athabasca gold field on Saturday by way of the Landing. He reports about 300 men on the Athabasca from the mouth of the Pembina to a few miles above Fort Assiniboine, a distance of about 50 miles. Only a part are working as the water is still high and the remainder are prospecting or lying idle waiting for the water to fall. Most of those who are working do so by damming out the water from a part of the bar and then after the water is bailed out of the area inside the dam, working out the pay dirt. On one bar that Mr. Brewster worked on, a large party are now making \$5 a day in this way. At the mouth of the Pembina about 100 men were camped when he passed on the way down, they having reached the Athabasca by going down the Pembina. Most of those going now take the new road across the Pembina direct to the Athabasca. A large number of half breeds from St. Albert are at work on the river and are doing well. A good many are making preparations to move out to the Athabasca to live. The water in the Athabasca is falling, but as the bars are very flat the whole bar has to be exposed by the low water before any part can be worked. Mr. Brewster prospected the river all the way down to the Landing and found pay dirt all the way, a distance of over 120 miles. He believes that the diggings will not be worked out for many years. He was compelled to come in by the illness of his wife, who accompanied him.
STURGEON.
Abundance of rain has fallen in this district lately, which will greatly enhance the value of the crops. Some farmers have had to go considerable distances to cut hay this year, but they have succeeded in getting a good supply. Hay is over and harvest has begun. Crops on new land are excellent, but on old land they are light in some places.
There was a slight frost here on the night of Tuesday, 13th inst. Corn and cucumbers and the like suffered, but the frost was not severe enough to damage the grain any.
August 17th, 1895.

NOTICE OF REMOVAL!

Owing to my present stand not being convenient for a Stationery Store, I have decided to move into the store next door to E. RAYMER, corner of Queen St., at the end of the month. From Tuesday, 20th inst., to Saturday, 31st., I shall make the following Discounts: 20% off Chinaware and Baby Carriages; 25% of Toys and Fancy Goods. Stationery and staple articles at the very lowest rate.

F. H. ANDREWS.

NEW ADVERTISEMENTS.

LOST.
At Fort Saskatchewan, July 6th, a black and tan collie dog, half tall, blind of an eye, answers to the name of "Jack." Any person giving information which will lead to his recovery will be suitably rewarded. Leave word with W. Ross, Fort Saskatchewan.

EDMONTON BULLETIN, AUGUST 19TH, 1895.

INCOME TAX.

A very strong feeling has been developed in Edmonton against the assessment of small incomes under the present municipal ordinance. In order that there may be no doubt as to the law on the subject it may be as well to quote the section of the ordinance which applies, that is section 2 of part 4. "All land and personal property and income in the Territories shall, where no other express provision has been made in this respect, be liable to taxation, subject to the exemptions hereinafter mentioned." In the interpretation clauses a person taxable on account of income is "Any person receiving an annual income." In the list of exemptions the only exemption of income, is "The income of a farmer derived from his farm and the income of merchants, mechanics and other persons derived from capital liable to taxation." Webster's definition of income is "That gain which proceeds from labor, business, or property of any kind; the produce of a farm; the rent of houses; the proceeds of professional business; the profits of commerce or occupation; the interest of money or stock in funds." From this it appears that wage earners are taxable on their wages and that persons having no fixed income are still taxable for whatever income they have unless it be derived from property liable to taxation. Therefore the assessor was quite within the law in assessing incomes to the full amount and in assessing all but the exempted cases.

To state the law is one thing but to approve of it is another. There is no doubt that under the new ordinance passed at last session of the Territorial assembly the town has the power to tax incomes, but it does not necessarily follow that it will do so. Under subsection 41 of section 16 of part three, the council has the power to pass a by-law granting "Exemptions from taxation for the then current year" and it is an open question whether the council should not exercise the power of exemption in the case of small incomes, taxation of which looks very much like a hardship or even an injustice. It will be agreed generally that income should not be exempt from taxation simply because it is income and not property. The principle that wealth should bear the burden according to its nominal ability is generally conceded. But it is also conceded that owing to certain circumstances it is right and proper to exempt some forms of wealth or some portion of some form of wealth from taxation. For instance: personal property to the amount of \$300 is exempt from taxation; and also household effects of every kind, books and wearing apparel in use. The idea of exempting household effects and a certain valuation of personal property is no doubt on the principle that a person has a right to live and that a reasonable amount of the necessities of life should be free from taxation. If it is right that a person owning personal property, clothing and household utensils should be relieved from taxation in respect of these necessities of living, which have a certain degree of permanence and may be worth a great deal of money, how much more reasonable is it that the earnings with which his daily needs are supplied should be exempt as well? Indeed it shows a strange inequality in law to free from taxation a \$500 piano and a thousand dollar outfit of house furnishings, which represent wealth, and tax the wage earner for the price of his daily bread, which represents certainly not wealth and may be poverty. Under the former ordinance and in most other parts of the civilized world this principle is recognized and income up to a certain amount is exempt—an amount which no doubt is roughly based on the

actual requirements of a person or family for the year. The amount of income exemption in the Territories under the former ordinance was \$300, but that is not enough in this country. A petition drawn up by C. M. Woodworth was being circulated on Friday asking that an exemption of income up to \$600 be granted by the council, and was unanimously signed. It is to be hoped that the council will see its way to accede to the request; without prejudice, however, to the principle of the taxation of income; but let it be the taxation of wealth and not of poverty.

THE LANDING.

The watchword of the party now in power at Ottawa has been for not less than the past fifteen years the development of the Northwest. It has been claimed on their behalf that but for the efforts of themselves and friends there would not have been any Northwest. That they have been so busy year in and year out repelling the onslaughts of the wicked gits upon the Territories, that they have hardly been able to sleep at night. No doubt this is all true, and taking for granted that it is, no doubt to point out where further development can be assisted is to assure that assistance forthwith. Edmonton is the northern terminus of the railway system of the country. Athabasca Landing, ninety miles further north, is the beginning of the navigable waterways of the Mackenzie, on which four steamers are now running and another one is being built. The Landing is the gateway to the Mackenzie basin, an area of 800 by 1,000 miles. It is the point at which all travel and trade starts by boat for Peace River or for the Arctic ocean as the case may be. The freight handled at Athabasca Landing is a very considerable part of the business of the C. & E. railway. And yet there is no mail service to the Landing and no postal facilities there. The Edmonton board of trade has already called the attention of the post office department to the necessity of a mail service to the Landing, without result. The BULLETIN will go a step further and say that the importance of the Landing as a shipping point in the trade of this country is sufficient not only to warrant the establishment of a mail service but also the construction and operation of a telegraph line. It is quite possible that the mail route and the telegraph line would not directly pay expenses. But that they would pay indirectly by reason of the increased facility given for the transaction of important business there can be no doubt. Freight is delivered at the Landing with teams for the H. B. Co., the traders, or the missions. Something may be short, or missing, or broken. To get the lack replaced means a two or three days trip to Edmonton and return, or at least six days delay. Last week a man who was building boats at the Landing had to come in for a few pounds of nails of which he was short. Six days trip for man and horse for say ten pounds of nails and at least three days unnecessary delay. For if there had been a telegraph line a message could have been sent in and the nails sent out with a freighter, or if there was a mail service by mail. Another case occurred last week. The H. B. steamer was timed to leave the Landing for Grand Rapids on the 17th. At the rapids row boats connect it with the Grahame at Fort McMurray and the Grahame connects with the Wrigley at Fort Smith, the Wrigley making the trip to Peel's river within the Arctic circle. This is the last trip of the season. Frank Heron, the H. B. officer in charge at Fort Wrigley on the Mackenzie, came out on a former trip of the steamer on a trip of business and pleasure, to return on this last trip of the steamers. Not being used to railway time tables he missed the C. & E. train of Monday last, which would have brought him to Edmonton in time to catch the steamer at the Landing on Saturday. He came in on Thursday's train and unless he made the 90 miles between Edmonton and the Landing before the steamer started on Saturday he would have a trip of nearly 1,000 miles by canoe ahead of him; for once the

steamer started, there would be very little chance of his catching her. If a telegraph line existed the steamer could be delayed a few hours on the certainty that the passenger would be there. The Landing is one of the most important shipping points in the Territories, and the extension of the mail and telegraph service to that point would be of the very greatest possible assistance to the commerce of the north. The only wonder is how such a pressing necessity could have eluded the vigilance of a progressive government so long.

Vancouver correspondence of Commercial Aug 10: The market is now supplied with eastern Canada eggs, and Manitoba eggs are about out of the market. Potatoes have dropped to one-half their former price and are in excessive supply. Oats and other grains are coming in from the States at considerably lower prices, and no sales of Manitoba oats are reported. Manitoba dairy butter, old 3 to 8c, new 10 to 12c; Manitoba creamery, 17 to 18c; do. off grade 15 to 16c per lb.; Manitoba cheese 8 to 10c per lb.

The following statement shows the value of goods exported, entered for consumption and duty collected thereon, during the month of July, at Winnipeg, compared with the same month of 1894:

	Value '94.	Value '95.
Exported,	\$111,865.00	\$179,378.00
Entered for consumption, dutiable	134,287.00	207,910.00
Entered for consumption, free	41,704.00	83,927.00
Total consumption	\$175,900.00	\$291,827.00
Duty collected	37,763.43	52,178.86

British . Columbia Lumber.

Frank Osborne has now on hand plete stock of British Columbia Fir and Spruce Lumber, Cedar Lath, Shingles, Sash and Doors. Prepared to sell cheap for cash.

FRANK OSBORNE,

Second Street, H.B. Reserve.

WHITE FISH LAKE.

Recent heavy rains are hindering the curing of hay, which the Indians are cutting at Floating Stone lake, Hollow lake, and other places 10 or 12 miles off the reservation. The hay crop is very thin on the grounds usually cut.

Scarcity of rain in the growing season has left grain crops light, yet on new land there are some fine fields.

The new mission church and school bell is now in use at Saddle lake. It weighed 262 lbs. gross, purchased from the Menckely Bell Co., Troy.

Farmer Tompkins, of Battleford, has succeeded Farmer De Gear at White Fish lake.

The postoffice has been removed from the Indian farm to the Methodist mission, three miles down the lake.

As a contrast to the birch canoe, "The Willard," a keel boat, 12 feet long built by Mr. Philip Whitford of York boat fame, with sail rigged by Mr. Haworth, Jr., Edmonton, may be seen playing the waters of our romantic lake. A short time ago "The Willard" conveyed the school children up the lake to the beautiful picnic grounds where they enjoyed games, swinging, and a dinner. In storm or calm these children are at home on the water.

During the season herd after herd of horses have passed through to Lac la Biche where they were exchanged for cattle which were taken south.

Aug. 8th, 1895.

FORT SASKATCHEWAN, ALBERTA.

The same idiotic mistake of allowing the Canadian Pacific Railway to reserve several hundred thousand acres of land (in Prince Albert district) on account of its having built a branch line hundreds of miles southeast of said district, is now being made, as has already been made in Northern Alberta. It is no use beating about the bush, and therefore the writer points out, that it has been a bad act of statesmanship of this kind that have already led to a number of rebellions in this Canada of ours, and history will repeat itself. What business has the government to give away the best of the land in the future provinces of Saskatchewan and Alberta. It knows very well that it is putting a yoke around the necks of all the settlers, until such time as the worm turns. It would not dare to attempt any wild cat legislation of the kind in the provinces of Nova Scotia, New Brunswick, Prince Edward Island, Quebec, Ontario, Manitoba or British Columbia, and why should any outrageous legislation of the kind go on in the Territories. If the company had earned the land by building railroads through the country in which they selected their lands it would not have been so bad. The future provinces of Saskatchewan and Alberta are truly in a nice box now. The Dominion government should continue its movement, and grant the petroleum fields of the Athabasca to the Standard Oil Company, so that another yoke can be put around our throats and retard the growth and welfare of the whole Dominion. It has been known for years that another continental road would have been built through the Territories had it not been that no railway lands were left to subsidize it. This means a loss of many thousands of settlers, manufacturing industries not started, the mineral resources of our country not developed and all for what? Simply because a handful of capitalists so desired it. Now that the premier, Sir Mackenzie Bowell, and the minister of interior, Hon. T. M. Daly, will shortly visit Northern Alberta, they should be given to distinctly understand, so that they can inform their brother cabinet ministers, that the people thoroughly understand their unfortunate position over the loss of nearly every acre of good railway land, and do not want a repetition of the kind with our petroleum fields. If any attempt of the kind is to be made meetings will have to be called all over the Dominion, so as to raise such a hue and cry that there will be an end put to such an iniquitous proceeding. Plain talk now may save a lot of future trouble both to the government and people from one end of Canada to the other.

August 15th, 1895.

MANAWAN.

Haying is in full swing.

There are two school districts formed at Manawan. One called Manawan; the other Whitford.

There is a cheese factory here running in full swing every day, owned by Hughson Bros.

Manawan lake has lost nearly half its water this summer owing to there being very little rain; and consequently the crops have been very far back, though we had two good showers a few days ago, which decidedly improved the appearance of things.

The settlers of Manawan and vicinity are rather badly off in not having a storekeeper or merchant in their midst, to trade with, as the nearest store is the H. B. Co. at Victoria, twelve miles away. Only a small stock is kept there, so as a general rule we have to go to Fort Saskatchewan or Edmonton, which takes from four to five days, a heavy loss of time, especially when work presses. So the people of this place would like some one to take hold of the opportunity of putting a trading store here. He would have all the custom for miles around, as there is generally lots of fur killed here, and lots of gold passes through from the Saskatchewan gold diggers.

Two bands of horses have been driven from the south through here to Lac la Biche for sale, for either cash or cattle. They are now returning south again. One of the bands was driven by Shorty McLaughlin, from High River. The other band by John Norris, Jr., and Bob Begg, from Bow River. Shorty is to drive the remainder of his band to Prince Albert, while one or two of his men drive the cattle he has exchanged to High River.

The best cattle and horse ranching country will be found in this country from Manawan south to Battle river, about one hundred and fifty miles square. It is a hilly country, and full of small as well as big lakes, such as Rock Hill lake, Birch lake, Rithstone lake, Sweet Water lake, High Standing Stone lake, and many others. It is not thickly wooded, just enough to make shelter for cattle and horse. Good large bluffs of timber here and there and every small lake having plenty of hay around it. Fit to cut for winter use; and the hills are mostly bare all winter round. It has been the buffalo wintering grounds. All of

the buffalo hunters in Victoria are conversant with the locality since 1863. Since our hunting cart roads pass through it in all directions. If anyone would like to see the country for himself the writer would be glad to act as guide. Communicate by writing the editor of the BULLETIN. ONE WHO KNOWS.

Manitoba expects a crop yield of 30,000,000 bushels of grain.

Calgary Tribune, Aug. 14: A slight frost last night did considerable damage to garden produce in the city. So far as heard from the country the frost was not severe enough to injure the wheat crop.

The Hamilton Spectator remarks: "If Sir John Schultz, at the dictation of Sir Mackenzie Bowell, dismisses Mr. Greenway and his ministers, we fear that the Dominion electors will dismiss Sir Mackenzie and his ministers. But there is no fear of the Dominion premier doing anything so foolish."

A London despatch of August 12th says: Though Salisbury is determined to avenge the recent massacre of foreigners in Ku Cheng, and other outrages committed by the Chinese mob at that place, he refuses to entertain the claim of the missionary society that their agents be protected wherever they may go, and in this course the premier is backed up by the Liberals.

Winnipeg Tribune Aug. 12: Careful inquiries were made by wire this morning along the line of the Manitoba & Northwestern railway as to the state of the crops. From Portage la Prairie to Minnedosa wheat cutting has begun and will be general on Thursday or Friday next. West of Minnedosa the rains have retarded the crop somewhat, but cutting will be begun in earnest there at the beginning of next week.

Winnipeg Commercial Aug. 10: There is activity in elevator building, railway work, etc., preparing for the harvest, which will begin in earnest in another week or ten days' any harvesting so far being limited to a few early fields in advance of the general crop. Bank clearings at Winnipeg this week were a little less than the corresponding week last year, which is a reversal of the usual report of late.

Free Press Aug. 12: A cabinet council of three was held yesterday at the government buildings, at which some routine matters only were dealt with. The premier informed a Free Press reporter yesterday that the government would consider the message from Ottawa concerning the school question some time after harvest. At the present moment the members of the cabinet were much scattered, and the government would not deal with the question until a full meeting could be secured.

BY-LAW No. 107.

A By-law to provide for borrowing on the credit of the municipality at large the sum of \$3630.00.

Whereas for the purpose of permanently improving and benefiting the town, the Municipal Council has enacted as follows:

Cost of and incidental to the extension of Cliff street to the lower ferry, \$ 788 50

Costs of and incidental to the extension of McDougall street, 1491 50

Costs of and incidental to obtaining better railway and general traffic facilities for the town, 1350 00

Making a total of the sum of \$3630 00

And whereas it is expedient to borrow the said sum of \$3630.00 for the purpose of paying the said indebtedness, and for that purpose to issue the debentures of the municipality whereof the principal shall be payable within twenty years from the date whereon this By-law shall take effect, and the interest thereof shall be payable half-yearly at the rate of six per cent. per annum.

And whereas it is expedient to provide for the repayment of the said principal sum by the creation of an equal yearly sinking fund.

And whereas the total amount to be raised annually by special rate for payment of the said debt by means of a sinking fund as aforesaid, and the amount of interest thereon, is \$330.00.

And whereas the amount of the whole of the rateable property according to the last revised assessment roll is \$957,365.00.

And whereas the amount of the existing debt of the municipality outside of the debt due for the current expenses of the year, is \$14,362.25, incurred in respect of local improvements, and \$24,700.00 in respect of permanent improvements, whereof no part is in arrear.

And whereas the special rate on the dollar on the rateable property in the municipality according to the last revised assessment roll required as being sufficient to pay the said interest and create the said equal yearly sinking fund for the payment of the principal is thirty-five one-hundredths of a mill.

Therefore the Mayor and Council of the Municipality of the Town of Edmonton in council assembled, enact as follows:

1. This By-law to take effect on the 2nd day of September, 1895.

2. The Mayor and Clerk of the Municipality may borrow upon the credit of the Municipality the sum of \$3630.00, and may execute and issue debentures of the Municipality to that amount in sums of not less than \$500.00 each, repayable within twenty years from the said second day of September, 1895, with interest at the rate of six per cent. per annum, payable half-yearly; such debentures to be payable at the office of Edmonton of the Treasurer of the Municipality, and to have attached to them coupons for the payment of interest.

3. For the purpose of paying the amount which shall be required to be raised annually for paying the said interest, and creating an equal yearly sinking fund to be set apart for the payment of the said principal sum of \$3630.00, a special rate of thirty-five one-hundredths of a mill in the dollar over and above all other rates and taxes shall be levied, (in the same manner and at the same time as the general municipal taxes) upon the whole rateable property of the municipality in each year for the period of twenty years, being the period during which the said debentures will run and within which the debt created thereby is to be discharged.

4. Friday, the 30th day of August, 1895, between the hours of nine o'clock in the forenoon and five o'clock in the afternoon at the office of the Town Clerk, Edmonton, is hereby fixed as the time and place when and where the Returning Officer will sum up the number of votes given for and against the By-law.

5. A. G. Randall is hereby appointed as Returning Officer, and St. George Jelliff, Deputy Returning Officer to take the votes at the said time and place.

6. Friday, the 30th day of August, 1895, at the hour of six o'clock in the afternoon at the office of the Town Clerk, Edmonton, is hereby fixed as the time and place when and where the Returning Officer will sum up the number of votes given for and against this By-law.

Provisionally adopted in council this 7th day of August, 1895.

C. F. STRANG, Acting Mayor

A. G. RANDALL, Town Clerk

[L. S.] Public notice is hereby given that the foregoing is a true and correct copy of a proposed By-law which will be taken into consideration by the Council of the Municipality of the Town of Edmonton after being voted on by the electors of the Municipality; that the date of the next publication of the said proposed By-law and of this notice, appended thereto, in the EDMONTON BULLETIN, a public newspaper published in the said Municipality, is the 8th day of August, 1895; and that the votes of the electors will be taken thereon at the office of the Town Clerk, Edmonton, on Friday, the 30th day of August, 1895, from the hour of nine o'clock in the forenoon to five o'clock in the afternoon, and that a poll will then and there be taken for that purpose.

A. G. RANDALL, Town Clerk.

Hudson's Bay Company

(Incorporated 1670.)

We came here first and came to stay. Our business has undergone many changes as we have grown with the country and are now, and intend to continue, abreast of the times. GAME.

The duck shooting season commences on Friday of next week, August 23rd.

The season for plover, snipe and sand-piper began on August 1st.

Prairie chickens and partridges must not be shot until September 1st.

Geese are not protected at any season of the year, from any means of destruction.

Poison, traps or nets, must not be used to catch or kill protected birds during the shooting season.

Eggs must not be disturbed at any time.

Prairie chickens and partridges must not be exported from the Territories.

Persons not resident in the Territories must pay \$5.00 for a license to shoot.

The maximum fine for violation of the game law is \$50.

Trespass on cultivated or fenced lands in pursuit of game is forbidden under penalty of a fine of \$25.

POLICE TENDERS.

The mounted police at Fort Saskatchewan are calling for tenders for the following supplies; tenders to be in the hands of Supt. Griesbach, Fort Saskatchewan, at noon on the 30th inst.:

150,000 pounds of oats at Fort Saskatchewan.

30,000 pounds of oats at Edmonton.

400 cords of wood at Fort Saskatchewan.

25 cords of wood at St. Albert.

60 tons of coal at Edmonton.

50 tons of coal at Fort Saskatchewan.

Full particulars on application at the police office Edmonton or Fort Saskatchewan.

THE B. C. MARKET.

C. C. Macdonald, dairy superintendent for the government of Manitoba, recently visited British Columbia to find out the extent and nature of the market there for Manitoba produce. He reports that the British Columbia market is limited to about 80,000 white people, of whom about 20,000 are supplied by local farmers. The market is increasing, however. According to the customs returns the mining districts import \$75,000 worth of fresh meat, condensed milk, cream, butter, cheese, eggs, bacon, poultry, potatoes, hay, oats and flour every year from Washington. Most of this, he thinks, should be sent from Manitoba, in addition to what she is now supplying. Lest this might be considered too large, Mr. Macdonald notes that at one small port of entry \$27,000 worth of produce was entered for consumption last year. British Columbia is a mining and fishing country and they must look elsewhere for produce. The finest quality will always command a handsome price but a poor quality will bring no returns and finally kill the market. He found that a bad impression prevailed because enough attention has not been given to preparing and packing Manitoba dairy butter for shipment. In some cases four or five lots had been packed in one tub. It was of all textures, colors and appearances, the only thing uniform being the smell. Consequently, there is no demand for Manitoba dairy. Manitoba creamery, on the other hand is in good demand. The people want good quality, so that for the finest butter there will always be a good market. He considers the square butter tub the best, but owing to some bad butter having been sent in these tubs there is a prejudice against them, so that round tubs are now demanded. Various styles and sizes are required to suit the different markets. For Vancouver, Victoria and Nanaimo are required tubs of 10, 20, 30 and 50 pounds. The tubs should be lined with parchment paper. (Not waxed paper, which is not suitable for the purpose.) This aids in keeping the butter in case it is stored.

Butter put up in one or two pounds prints will find ready sale in the cities. This is also wrapped in parchment paper, cut to fit the print. Butter cloth or waxed paper is not suitable, as it does not keep the butter from the air and presents it in an untidy shape. Prints should be smooth, without fancy markings. For the mining trade butter should be put in tin pails of 5 and 10 pounds weight. They have a close cover, which fits inside the pail. Those should be lined like the butter tubs, with paper, but the seal covering should be omitted, as it is apt to cause rust. Only a limited quantity of these is required, as they are only for prospectors and miners carrying in their supplies by horseback and pack train. For the towns and dining halls the tubs are the most desirable.

As the market quotations on grain and vegetables in British Columbia are entirely in tune while those in the Northwest are in bushels of so many pounds, most people find a difficulty in getting at the exact value to us of the B. C. quotations. To make the reduction from the price per ton to the price per bushel, the easiest way to begin is to divide the price per ton by 2 which gives the price per 1,000 pounds. Dividing the result by 1,000 (shifting the decimal point three places to the left) gives the price per pound. Multiply the price per pound by the number of pounds in the bushel, and the result is the price per bushel.

SCHOOL MEETING.

A special meeting of the trustees of Edmonton public school district was held in the secretary's office on Friday afternoon. Present: Oliver, McCauley and Cameron.

The tender of Ross Bros. to heat the new school building with the J. F. Pease Co's furnace for \$472 was accepted on motion of Cameron and McCauley. The tenders guaranteeing satisfaction in any temperature.

Tenders for \$5,000 school debentures repayable in yearly instalments with interest at 5 per cent. were received from

Geo. Stimson, Toronto, at 97.50
Imperial bank, 92.25
Town of Edmonton for \$2,500 100.00
Kirby & Colgate, Winnipeg, 101.55

McCauley—Cameron moved that the tender of Kirby & Colgate be accepted, payments to be made at the office of the treasurer of the district.

GUN CLUB.

A pigeon shoot was held on Saturday last by the Edmonton gun club to decide the possession of the cup presented by Thos. Johnson, traveller for G. F. & J. Galt. There were three events. The first and second were sweepstakes and the 3rd a team shoot. In the first event Messrs. De Roux and Carpenter tied for first. The tie has not yet been shot off. J. V. E. Carpenter won the second event. J. R. Turnbull was captain, and H. De Roux and H. L. McInnis members, of the winning team in the team shoot. The highest aggregate score in the three events took the cup, which was won by J. R. Turnbull. There were ten birds in each event. The following is the score:

	1st event.	2nd event.	3rd event.	Total
Sache,	6	6	4	16
Robertson,	4	4	6	14
Martin,	3	2	4	9
Turnbull,	6	6	7	19
McInnis,	4	5	3	12
McNicol,	1	2	3	6
Chalmers,	3	4	4	11
De Roux,	7	5	3	15
Carpenter,	7	7	4	18
Adams,	3	6	5	14
De Roux,	1			

The following programme for dealing with Manitoba on the school question is given in a Montreal special to the Toronto World. "The report of Patterson's taking the Manitoba governorship would not alter in the least the method of solving the school question which is being urged by western Conservatives upon the federal authority. Schultz or Patterson, both must follow the same course. They represent the federal authority and the privy council judgment clearly imposes action of some sort, and no Manitoba governor can accept a blank refusal to act at all from provincial ministers. He would have to find other advisers. A new adviser would maintain the public school system but would make enough concessions to satisfy the minority. The Manitoba legislature does not meet till next year, but the conservative provincial minority, with Hugh J. Macdonald or some other good man as leader would be justified in appealing to the people upon the policy. At the same time the Dominion government would be absolved by the action of the new ministers from holding another session of parliament. They could appeal to the country on the day the Manitoba elections were held. With a reasonable measure of school reform and the support of the Canadian Pacific, both governments would carry the prairie province. This or something like it is the only solution of the school question.

METEOROLOGICAL.

The following temperatures are reported from the Dominion government observatory, Edmonton, for the dates given:

Apply to M. MACKENZIE, White Avenue, South Edmonton, or to OSLER HAMMOND & NANTON, Winnipeg.

BY-LAW No. 103.

A By-Law to provide for the borrowing on the credit of the municipality at large, the sum of \$403.65 for the payment of certain local improvements made in the year 1894.

WHEREAS, under and in pursuance of the provisions of the Municipal Ordinance in that behalf, a petition (hereinafter referred to as Petition No. 2) duly signed, was presented to the Council of the Municipality of the Town of Edmonton asking that that portion of Jasper Avenue lying between Second Street and Third Street on the Hudson's Bay Company's Reserve, Edmonton, should be graded, and the cost thereof be paid by special frontage assessment upon the lands fronting on the portion of Jasper Avenue whereon the improvement was proposed to be made;

AND WHEREAS, under and in pursuance of the provisions of the Municipal Ordinance in that behalf, a petition (hereinafter referred to as Petition No. 2) duly signed, was presented to the Council of the Municipality, asking that a plank sidewalk be constructed on the south side of Jasper Avenue between First Street and Third Street on the Hudson's Bay Company's Reserve, Edmonton, and the cost thereof paid by special frontage assessment upon the lands fronting on the portion of Jasper Avenue whereon the improvement was proposed to be made;

AND WHEREAS the said improvements were made, and the expenditure necessary therefor was met by means of temporary loans or advances effected in pursuance of the Municipal Ordinance in that behalf;

AND WHEREAS by and in pursuance of By-laws in that behalf made by the Council of the Municipality, the said improvements were made, and the expenditure necessary therefor was met by means of temporary loans or advances effected in pursuance of the Municipal Ordinance in that behalf;

AND WHEREAS by and in pursuance of the said By-laws, the cost of the improvements was accordingly assessed by way of special frontage assessment upon the lands fronting on the portion whereon the improvements were made, the said cost to be levied by a special rate upon the said lands comprised in each petition respectively in such manner that there should be levied and collected the sum of \$11.70 in respect of ten years from and after the first day of January, 1895, at the same time and in the same manner as the general municipal taxes, such sums as should be sufficient to pay the said interest at the rate of six per cent. per annum upon the amount of the cost, and form an equal yearly sinking fund for the payment of the principal of the amount thereof, estimating the rate of interest on the investment of the sinking fund at five per cent. capitalized yearly.

AND WHEREAS, for the purpose of repaying the said debt, the said interest and the principal thereof it is necessary and expedient to borrow on the credit of the Municipality at large the said sum of \$403.65 by the issue of debentures, the principal whereof shall be repayable on the 31st day of December, 1904, and which shall bear interest from the 1st day of January, 1895, payable half-yearly at the rate of six per cent. per annum.

AND WHEREAS while the said debt is created on the credit of the Municipality at large, the Municipality is to collect the same only by way of special frontage and assessments.

AND WHEREAS it is expedient to provide for the repayment of the said principal sum by the creation of an equal yearly sinking fund.

AND WHEREAS the total amount required to be raised by the special rate for the repayment of the said debt of \$403.65 by means of a sinking fund as aforesaid, and the interest thereon as aforesaid is \$56.55, being composed of the sum of \$11.70 in respect of the sum of \$83.40, the cost of the improvements under Petition No. 1, and the sum of \$44.65 in respect of the sum of \$83.25, the cost of the improvements under Petition No. 2.

AND WHEREAS the annual special rate per foot frontage for the paying of interest and creating an equal yearly sinking fund, for the payment of the said sum of \$11.70 is 1.35-100 cents per foot frontage of the land comprised in Petition No. 1, and the annual special rate for the paying of interest and creating an equal yearly sinking fund for the payment of the sum of \$44.65, is 7.4-100 cents per foot frontage on the land comprised in Petition No. 2.

THEREFORE, the Mayor and Council of the Municipality of the Town of Edmonton in Council assembled, enact as follows:

1. That this by-law shall come into force on the day of the final passing thereof.

2. The Mayor and Clerk of the Municipality may borrow on the credit of the Municipality at large, the sum of \$403.65 and interest thereon at the rate of 6 per cent per annum from the first day of January 1895, and for that purpose may issue one or more debentures of the Municipality at large, in sums of not less than \$100 each, repayable on the 31st day of December, 1904, bearing interest at the rate of 6 per cent. per annum from the 1st day of January, 1895, payable half-yearly; such debentures to be payable at the office of Edmonton of the Treasurer of the Municipality, and to have attached thereto, coupons for the payment of interest.

3. For the purpose of paying the amount which shall be required to be raised annually for the payment of the said interest and creating the equal yearly sinking fund to be set apart for the payment of the said principal sum of \$403.65, there shall be levied at the same time as the general Municipal Taxes in each year, during the period of ten years from and after the first day of January, 1895, an annual special rate, over and above all other rates, of 1.35-100 cents per foot frontage on all of the land comprised in Petition No. 1, and of 7.4-100 cents per foot frontage on all the land comprised in Petition No. 2.

4. The credit of the Municipality is hereby pledged for the payment of the said sum of \$403.65 and interest as aforesaid.

Done and passed in Council this 19th day of June, A. D. 1895.

H. C. WILSON, Mayor.

A. G. RANDALL, Clerk.

Presented to this ninth day of August, A.D. 1895.

C. H. MACKINTOSH, Lieutenant-Governor of the North-West Territories.

NOTICE.

The above is a true copy of a By-law passed by the Municipal Council of the Municipality of the Town of Edmonton on the 19th day of June, A. D. 1895, and approved by His Honor the Lieutenant-Governor in Council on the ninth day of August, 1895, and all persons are hereby required to take notice that any person desirous of applying to have such By-law or any part thereof quashed must make his application for that purpose to the Judge of the Court of Session within two months next after the third publication of this notice or he will be too late to be heard in that behalf.

A. G. RANDALL, Clerk of the Municipality of the Town of Edmonton.
